Staff Summary of Public Testimony on Second Substitute: PRO: This is an important bill. When you have an election nearly every month as in some of the smaller counties, housekeeping becomes a real issue. The purpose of this bill is to have one election in February, one in May, one in August, and one in November. This should allow the election

administrators time to do the work they need to do and should save money. There is a real crunch currently that makes it very difficult to update voter registrations between elections. There will be an amendment to change the dates to the second Tuesday in February and the second Tuesday in May. We support the move to two dates but are still working to decide which two dates are the best for everyone involved.

CON: One solution is to keep four elections and spread them out further. There are two main sources of funding for education; one is the state Legislature and the other is local elections school districts can hold. Our concern is if we take away two of the four special election dates all tax issues will be on the same two ballots and will thus be competing with each other. Our worry is that our levies will be able to pass with a simple majority but education bonds need a super majority to pass. We are working with the auditors and other interested parties but we continue to have concerns.
